The environmental health team are now involved with licensing compliance, housing enforcement and environmental health issues.

There are some worrying ASB trends in some areas of Whittlesey, recently FDC have had a successful prosecution. FDC are working with Peterborough on the youth issues as there seems to be a crossover between Whittlesey and Peterborough youth.

Cllr Mrs Laws – Ice-cream van in the coop car park at 8pm on Sunday nights and there have been questions as to why it is there. Mrs Sadler will investigate.

**F50/17 Consultation**

- The Council made the following announcement.
In pursuance of new premises for Whittlesey Town Council

It was announced in the minutes (F37/17) of a Full Council meeting held on 8th February 2017 that Whittlesey Town Council is purchasing a property to house the Town Clerk, Council Offices and meeting rooms.

Negotiations are well advanced, with surveys and reports on suitability already conducted. The Town Council would be happy to hear the views of residents in respect of this endeavour and ask they put any comments in writing to Mrs Susan Piergianni, Town Clerk at Whittlesey Town Council, Grosvenor House, Grosvenor Road, Whittlesey, PE7 1AQ, or via email: whittleseytowncouncil@btconnect.com Although the precise details may not be disclosed at this stage because they are commercially sensitive, some facts may be helpful:

After 20 years, the property being considered would then be a wholly owned asset of Whittlesey Town Council and its residents. Currently WTC pay a rent of £9,600 p.a. for a Full repairing lease that also ties the Council in to an insurance agreement. (approximately £1000.00 per year) WTC has no other significant fixed assets.

Council has accumulated reserves since the current arrangement commenced and is now able to commit a substantial deposit towards a suitable building. The balance may be funded by a favourable loan arrangement designed to be used in such circumstances by central government. The cost of repayment would approximate the current rent and maintenance budget – therefore no additional burden on tax payers.

Existing facilities are neither energy efficient or convenient for those working in or visiting the Council. The main meeting room is currently on the first floor with poor access arrangements for those with difficulty moving or are visually impaired. Disabled access to washroom facilities, cannot be described as satisfactory.

The proposed site is likely to feature ground floor access for Councillors and members of the public. The location will be central to the town with ample parking close by. The building has potential for considerably higher levels of insulation, greater energy efficiency and provision of a community asset. The office accommodation for the Town Clerk will be a secure office, with additional areas for public and visitors. It is the intention to provide value for money and improved facilities.

A full cash flow projection has been presented to Councillors, advice in respect of energy efficiency and adherence to current legislation and best practice will be accessed through established professional advice facilities utilising local trades where possible.

A parish council was allocated 5K for a footpath to extend their cemetery. Therefore, WTC could apply for funding providing it is for the benefit of the community. One village received £11.5K of funding for three projects.

Cllr Bristow advised there are two funds that will benefit the residents of Whittlesey a health fund which has 75K per year for physical and mental health. There is another fund that is given by Larkfleet which could benefit Defibrillators for All or NPNG UK.

The full survey will also be available on Whittlesey Town Council web site. The on-line survey is considered the primary method of completion because this will save significant time in processing the data.

The Web site has also been enhanced by an additional tab that draws attention to 39 points of interest, based on an existing Whittlesey Guide. This is a starting point for further publicity to help promote tourism in this parish.

Post Office closure, WTC web site also alerts residents about the impending closure for just over 2 weeks in March when the Post Office counter will be re sited, and again in April when the host premises closes for a refurbishment programme. Councillors have requested alternative arrangements for residents, however, the Post Office have been unable to provide any assurances other than highlighting alternative Post Office counters in Coates, Stanground, Facet and Ramsey St Mary’s, specifically a mobile unit was requested but the company maintain there are none available.

If WTC become aware of any alterations to the arrangements they will be posted on the WTC web site, it is with regret that the Post Office web site provides no such updates. According to Post Office Customer Care – there is a customer consultation process going on although it cannot be located on their web site or in the branch.

- Post Office: - The Town Council website gives details of the closure for two weeks and also when the host premise closes for refurbishment. on WTC website, unfortunately the Post office are in the process of carrying out a large consultant and as such are unable to publish any of this information on their website. If there are any changes, they will put a notice in the closed post office! Members were advised that the post office works have been stated early as they need to commence the work during the current financial year. Cllr Dorling suggested a letter be sent to the Post Office requesting an improvement in the service for the month of April, there is no criticism of the Nisa store and their works as they are being undertaken to meet customer demand.
